

EDITORIAL

We do not always have real “news” to be published on the “Babbini News” therefore this will be a short version, only for the Christmas greetings.

That is.

I thank our loyal customers who allowed us to close the year 2017 with a record turnover.

This allowed us to upgrade our production structure and the engineering department in order to continue to be the referent point in this field.

I wish to all our readers a 2018 so beautiful to be remembered for a long time.

Best Wishes

Piero Prati
